

to remember that a vote for this bill is a vote for educational opportunity.

Finally, due to extensive good-faith negotiations, this bill is a win for our environment. It does more to protect endangered species than the original House version, and eliminates a provision allowing oil drilling at the Tongas National Forest—the world's largest temperate rainforest. And under the final compromise, the National Park Service retains management authority of the Mojave Desert National Preserve—as outlined in the California Desert Protection Act Congress passed in 1994.

Overall, Mr. Speaker, this budget package is the right thing to do for our children and grandchildren who deserve our best efforts to give them a deficit-free future. This plan is the first concrete step in honoring this commitment and I urge all Members of the House to support final passage.

#### CONGRATULATIONS TO THE NATIONAL ASSOCIATION OF LETTER CARRIERS

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1996

Mr. STARK. Mr. Speaker, I rise today to recognize the National Association of Letter Carriers who will be holding their annual "Food Drive" Day this Saturday, May 11, 1996. I would especially like to recognize those letter carriers in California's 13th Congressional District who have worked so diligently over the past few years to make this food drive such a great success.

The National Association of Letter Carriers' Food Drive Day began as a pilot program in just 10 cities in 1991. It has since grown into one of the largest one day food collection drives in our entire nation. Since 1993, letter carriers across the country have joined in a nationwide effort to make the second Saturday in May, "National Letter Carriers' Food Drive" Day.

This program has been a tremendous success. The first nationwide drive, in 1993, gathered 11 million pounds of food. In 1994, 32 million pounds of food were collected and in 1995 almost 45 million pounds of food were donated by postal patrons nationwide. This Saturday, letter carriers will pick up food donations as they deliver the mail. To participate, one leaves canned or non-perishable food next to one's mail box or takes it to the nearest Post Office. All of the food items collected that day are then delivered to local food banks.

Mr. Speaker, in the Bay Area, almost 300,000 people—half of them children—need emergency food. I urge you and my colleagues to join me in acknowledging the National Association of Letter Carriers for their efforts to help those who are less fortunate. I also urge anyone who can to participate in this Saturday's National Association of Letter Carriers' Food Drive.

#### HONORING THE FIVE POINT VOLUNTEER FIRE DEPARTMENT

HON. BART GORDON

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1996

Mr. GORDON. Mr. Speaker, I am taking this opportunity to applaud the invaluable services provided by the Five Point Volunteer Fire Department. These brave, civic-minded people give freely of their time so that we may all feel safer at night.

Few realize the depth of training and hard work that goes into being a volunteer firefighter. To quote one of my local volunteers, "These firemen must have an overwhelming desire to do for others while expecting nothing in return."

Preparation includes twice-monthly training programs in which they have live drills, study the latest videos featuring the latest in fire-fighting tactics, as well as attend seminars where they can obtain the knowledge they need to save lives. Within a year of becoming a volunteer firefighter, most attend the Tennessee Fire Training School in Murfreesboro where they undergo further, intensified training.

When the residents of my district go to bed at night, they know that should disaster strike and their home catch fire, well-trained and qualified volunteer fire departments are ready and willing to give so graciously and generously of themselves. This peace of mind should not be taken for granted.

By selflessly giving of themselves, they ensure a safer future for us all. We owe these volunteer fire departments a debt of gratitude for their service and sacrifice.

#### NUCLEAR NONPROLIFERATION AND SOUTH ASIA

HON. TIM JOHNSON

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1996

Mr. JOHNSON of South Dakota. Mr. Speaker, I have long advocated the importance of

the U.S. role in responsible trade in conventional arms and nuclear technologies, and I feel strongly that, as the world's remaining superpower, the United States can and should set an international example of positive political change through monitoring trade in nuclear technologies. Since the collapse of the Soviet Union, I believe that stopping the proliferation of nuclear weapons should be our highest priority in international relations. I am a strong supporter of the Nuclear Nonproliferation Treaty [NPT] and its member nations. The NPT has helped prevent dramatic increase in nuclear weapon-capable states. I was encouraged by last year's indefinite extension of the NPT by consensus over 175 nations, and I actively encourage the recognition of non-proliferation at every level as the key to global security.

Since its implementation in 1970, however, many nations that have remained outside of the NPT have concentrated on the buildup of their own nuclear capabilities. These threshold nuclear states view the NPT as discriminatory, because the treaty divides the world into the nuclear haves and have nots and, as they see it, unfairly places nonnuclear nations at a strategic disadvantage relative to the nuclear states. At the same time, several of these nations have stated that, without significant steps toward reducing stockpiles for all member nations, the NPT cannot be the foundation for an end to the arms race and complete nuclear disarmament.

Nowhere is this attitude more alarming than in South Asia. Regional religious and political history, particularly with India and Pakistan, has encouraged heightened military unease in the region, and an association of nuclear capability with regional dominance. Pakistan, a nation of 130 million, has long feared being overwhelmed militarily by India, with its population of over 900 million. Historical alliances and relations with nuclear and nonnuclear nations elsewhere in the region have contributed to forcing these two countries in a race toward nuclear weapon capacity. I believe the nuclear arms race saps the strength of any developing country, and I have repeatedly expressed my concern about the nuclear direction in which these two nations have been headed. The future of our national, as well as global, security depends more than anything on our ability to restrain the proliferation of weapons of mass destruction and to enhance the breadth of opportunities for every citizen of the world.
